<b>COMPANY FOR APPROVAL OF AN INTRALATA</b>	)	
<b>TOLL DIALING PARITY IMPLEMENTATION PLAN</b>	)	

---

**ORDER APPROVING THE SUSPENSION OF  
INTRALATA TOLL DIALING PARITY IMPLEMENTATION PLAN**

---

This matter came before the Tennessee Regulatory Authority (the "Authority") on July 13, 1999, at a regularly scheduled Authority Conference, to consider the Petition of Citizens Telecommunications Company ("Citizens") requesting suspension of the requirement to implement IntraLATA Toll Dialing Parity.

Section 251(b) of the Telecommunications Act of 1996 ("the Act") requires all Local Exchange Carriers to provide dialing parity.<sup>1</sup> Specifically, section 251(b)(3) of the Act states, "Dialing Parity - The duty to provide dialing parity to competing providers of telephone exchange service and telephone toll service, and the duty to permit all such providers to have nondiscriminatory access to telephone numbers, operator services, directory assistance, and directory listing, with no unreasonable dialing delays." The Act in sections 251(f)(1) and 251(f)(2) allows state commissions to approve a modification or suspension of dialing parity rules for carriers with fewer than 2% of the total access lines nationwide. The requirements for granting the modification or suspension are that the modification or suspension will allow the carrier to prevent a condition

that will be economically burdensome, or that is technically infeasible, or will allow avoidance of an adverse economic impact and is consistent with the public interest.

The Federal Communications Commission ("FCC") initiated a rulemaking on dialing parity on April 19, 1996 and issued its findings in FCC 96-333 Order (Docket 96-98) adopted on August 8, 1996. This Order sets forth the criteria and guidelines for filing of a plan by all carriers. Subsequent to this Order the United States Court of Appeals for the Eighth Circuit vacated the FCC's rules, as they were applicable to intrastate services.<sup>2</sup> On January 25, 1999, the United States Supreme Court reversed certain portions of the Eighth Circuit's decision including that part of the decision which had stricken the FCC's rules pertaining to dialing parity.<sup>3</sup>

The FCC's original date for implementation, February 8, 1999, was reinstated by the Supreme Court's decision of January 25, 1999. As a result of this reinstatement, the FCC released FCC 99-54 Order (Docket 96-98) on March 23, 1999, which set forth revised implementation dates for dialing parity. This Order establishes April 22, 1999 as the new date by which all Local Exchange Carriers must file an IntraLATA Toll Dialing Parity Plan with State Commissions for approval. The Plan must be implemented within thirty (30) days after approval from the State Commission. Additionally, the Order states that the Plan must be filed with the Common Carrier Bureau of the FCC if the State Commission has not acted on the Plan by June 22, 1999.

Citizens Telecommunications Company is a Competitive Local Exchange Carrier certified to provide telecommunications services in Tennessee. Citizens is not providing service in Tennessee and maintains it is technically infeasible to provide intraLATA toll dialing parity at this time. Because of this technical infeasibility, Citizens requests that the Authority approve a suspension of the implementation of intraLATA Toll Dialing Parity. This request is made pursuant to Section 251(f)(2) of the Telecommunications Act of 1996. Specifically, Citizens requests to be allowed to

delay the submission of an intraLATA toll dialing parity implementation plan until sixty (60) days prior to offering local service in Tennessee.

The Directors considered the request of Citizens Telecommunications Company at the July 13, 1999 Authority Conference. At that time the Directors unanimously voted to approve this request.

**IT IS THEREFORE ORDERED THAT:**

1. The request of Citizens Telecommunications Company to delay implementation of IntraLATA Toll Dialing Parity is approved;
2. Citizens Telecommunications Company shall file an IntraLATA Toll Dialing Parity Implementation Plan with the Tennessee Regulatory Authority sixty (60) days prior to offering local service; and
3. Any party aggrieved by the Authority's decision in this matter may file a Petition for Reconsideration with the Authority within ten (10) days from and after the date of this Order.
